

DINOSAUR MASKS

See “Dino Dance” book activity Ideas.

1. Carefully cut out the eyes. 2. Colour and decorate your mask. 3. Cut a cardboard strip about 4 cm (1.5 inches) wide and long enough to wrap around the child's head. A length of about 60 cm (23 inches) should allow for plenty of overlap.
2. Wrap the strip around the child's head. While one person holds it in place, have another person place the mask on the child's face and mark the back of the mask just above and below the strip. Make sure the child can see through the cutout eyes.
4. Next, place the mask on a table and center the strip on the back, lining it up with the marks. Glue or tape it in place. 5. Finally, staple or cello tape the two ends of the band together. 6. Alternatively: Punch a hole on each side of the mask, thread elastic through, and tie knots at both ends. Make sure it fits snugly on the child.

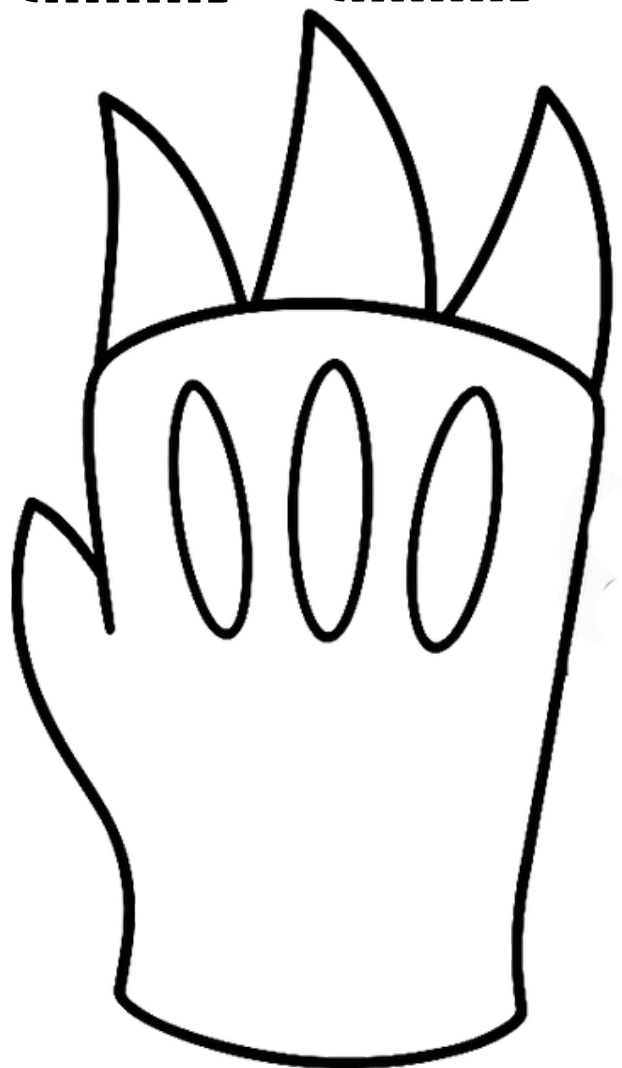

DINOSAUR MASKS

1. Colour and decorate the claw cutouts.
2. Cut a short cardboard strip and make a band to fit around the child's wrist. Leave some overlap, but don't attach it yet.
3. Place the decorated claws on top of the child's hand to find the best position for attaching them to the band.
4. Staple the claws to the loop, then secure the loop ends with staples, glue, or tape to complete the wristband.
5. Alternative option: Make a loop for the fingers instead of the wrist. The child slides their fingers through the loop and holds it like a handle, with the claws attached to that.

Dinosaur Discovery Sensory Game

Brief Description:

Children explore through touch by searching for hidden dinosaur fossils and bones in a bucket of sand or rice, while blindfolded! Each fossil has a point value, making it a fun and competitive game. Children can also hide their own little treasures for extra fun. The winner is the person who collects the most points or finds the most fossils within the time limit.

Learning Outcomes:

- ✓ Sensory Exploration: Develops touch and sensory awareness.
- ✓ Fine Motor Skills: Improves hand-eye coordination and precision.
- ✓ Counting and Numeracy: Encourages counting, addition, and comparing scores.
- ✓ Turn-Taking and Cooperation: Promotes social skills and friendly competition.
- ✓ Problem Solving: Encourages quick thinking and decision-making under time pressure

What You Need:

- A bucket or a large container
- Sand, rice, or similar sensory filler
- Dinosaur fossils and bone drawings (or small toy fossils)
- Optional: extra small treasures (e.g., small toys or shells)
- Blindfold
- Score sheet and pencil
- Timer

How to Play:

- 1.Hide fossils in the bucket of sand or rice.
- 2.Set a timer (e.g., 1–2 minutes per round).
- 3.Players take turns being blindfolded and searching for fossils.
- 4.Add up points based on what each player finds—different fossils have different scores.
- 5.The player with the most points wins!

Alternate Game:

Winner is the player with the greatest number of fossils found.

DINOSAUR DISCOVERY SENSORY GAME

Cut and laminate. Can be used as fossils to hide in a bucket of sand or rice while blindfolded. Different fossils - different points. See our Dino Dance book activity Ideas.

Design a Dino – Imaginative Drawing Activity

Activity Description:

Children use their imagination to design and draw their own unique dinosaur! They can think about what their dinosaur looks like, how it moves, and what it eats. Afterwards, children are encouraged to present their creation to the class, helping to build confidence in sharing their ideas.

Learning Outcomes:

- ✓ Creativity: Encourages imaginative thinking and creative expression.
- ✓ Fine Motor Skills: Develops drawing and colouring abilities.
- ✓ Oral Communication: Builds confidence through class presentations.
- ✓ Descriptive Language: Supports vocabulary growth by describing features and behaviours.
- ✓ Listening Skills: Promotes attentive listening during classmates' presentations.

Age Group: 5–8 years. It can be adapted for younger children with adult assistance.

What You Need:

- Design a Dino worksheet
- Pencils, crayons, or markers
- Optional: extra paper for naming and describing their dinosaur
- Class presentation time (optional but encouraged)

DESIGN A DINO

Dino Dance Activity Idea: Imagine, draw, and name your own dinosaur, then share it with the class.
